DarkPulse, Inc., a technology-security company, develops, markets, and distributes a suite of engineering, installation, and security management solutions to industries and governments. The company develops patented BOTDA dark-pulse sensor technology that allows a data stream of critical metrics for assessing the health and security of their infrastructure. It offers two security platforms, Fiber and Ultra-High Sensitivity Sensors. The company intends to deliver security and monitoring systems in applications for border security, pipelines, the oil and gas industry, and mine safety. It has an agreement with the university of Arizona to

develop intelligent rock bolt for changing mining conditions. The company was incorporated in 1989 and is based in New York, New York.
